Cell Therapy: From Science to Health and Wealth Creation

Wednesday 9th December
08.30 -11.30hrs
Hosted by Mathys & Squire LLP
The Shard, 32 London Bridge Street, London SE1 9SG

This meeting is a part of the satellite seminars hosted in London on the day prior to the annual Genesis Conference aiming to bring attendees with a variety of perspectives together for networking, debate and future collaboration.

By way of context, this video by Keith Thompson, CEO, Cell Therapy Catapult provides an update on how they are accelerating innovation in cell therapy.

The invited speakers will present on how, by translating scientific research in cell therapy through clinical development and manufacturing with an appropriate IP strategy will create health and wealth whilst enhancing R&D and foster investment. Clear understanding of the technology, regulatory and commercial facets will be required to bring about scientific innovation and commercialisation at a national and global scale.

**Agenda:**
